WHO WE ARE

Valoriza is reshaping resource recovery in Australia. We combine international capability and investment strength with local operational expertise – delivering disciplined, high-performing recovery solutions with genuine accountability at the local level. We act as a connector and catalyst because Australia's recovery challenges require more than isolated solutions. They demand collaboration, commercial discipline and the confidence to set higher expectations. Our advanced organics processing facility in Victoria is the foundation. From there, we are building a stronger, more accountable model for recovery – grounded in performance and designed to grow.

YOUR SAFE, SUSTAINABLE AND RELIABLE SOLUTION FOR FOOD WASTE

Valoriza provides specialist processing services for source-separated food waste, supporting your business to divert organic material from landfill and contribute to Victoria's circular economy.

Our purpose-built composting facility gives customers confidence that your food waste is handled safely, compliantly and responsibly, with a strong focus on environmental performance, operational reliability and long-term partnerships.

WHO WE WORK WITH

Food
manufacturers
and processors

Hospitality and
food service
operations

Large commercial
kitchens and
institutions

Waste
management
companies

YOU CAN RELY ON US

Our operations are built around consistency, safety and compliance – so your business can rely on a stable, long-term solution.

> Safe operations

- Strong safety culture embedded across site operations
- Controlled receipt, handling and processing systems
- Clear acceptance criteria to reduce risk and contamination

> Sustainable outcomes

- Food waste is transformed into valuable organic outputs
- Supports landfill diversion and emissions reduction goals

> Reliable processing capacity

- Proven infrastructure and experienced operations team
- Designed for consistent throughput and quality outcomes
- Long-term focus on reliability, not short-term fixes

WHY PARTNER WITH VALORIZA

- A dedicated organics processor – not a general waste handler
- Clear material acceptance standards to protect performance
- Transparent communication and commercial accountability
- A trusted partner for businesses seeking certainty and compliance

MATERIAL ACCEPTANCE

Accepted:

- Unpackaged commercial food waste
- Source-separated organic material

Not accepted:

- Food waste in packaging
- Contaminated or mixed waste streams

Full acceptance criteria available on Valoriza's website.
